# WL350 Firewall®

## Excellent purifying performance, easy operation and stylish design

### Purified water for the workplace

With a choice of hot and cold water, the WL350 Firewall is the preferred solution for any small or medium size workplace looking for great tasting water, reliability and guaranteed quality.

### Advanced technology

The WL350 features three core technologies:

**High performance filtration**
Waterlogic's filters are certified to stringent standards by IAPMO R&T and to NSF/ANSI-53 for the reduction of lead, asbestos, and cysts, meaning they offer the best possible filtration.

**Firewall purification**
Waterlogic's patented Firewall technology features a highly effective UVC purification system that acts all the way through to the point of dispense. **Firewall guarantees water free from viruses and bacteria up to 99.9999%. Guaranteed effective against COVID-19.**

**BioCote® protection**
The key surfaces surrounding the dispensing area are infused with BioCote®, a silver ion additive that provides an effective barrier against microbes like bacteria and mold, which may cause odors or staining.

### Certified purity for peace of mind

The Firewall technology has been tested and certified by the IAPMO R&T to NSF/ANSI-55 Class A UV and NSF P231 protocol, which is unique – no other water cooler features these standards of certification for microbiological water treatment systems together. This means that Firewall technology delivers the safest water possible for the workplace.

*BioCote® technology does not protect users or others against disease causing bacteria, germs, viruses or other harmful organisms. This technology is not a substitute for good hygiene and/or cleaning practices. BioCote® has not been tested or proven effective against SARS-CoV-2.

## Features

| |
|---|
| Firewall UV technology purifies the water at the point of dispense and sanitizes the faucet with every use |
| Energy saving sleep mode to significantly reduce power consumption when unit is not in use |
| Generous drip tray capacity for collecting accidental spillage |
| LED UV fault indicator for easier servicing and peace of mind |
| BioCote protected dispensing area (including drip tray body, cold faucet and dispensing buttons) |

## Water options

cold    hot

## Number of users

up to 30

## Technical specifications

**Types available**
Freestanding and countertop

**Dimensions**
Freestanding:
13.6"/345mm (W) x 40.2"/1022mm (H) x 14.4"/367mm (D)
Countertop:
13.6"/345mm (W) x 17.7"/450.5mm (H) x 14.4"/367mm (D)

**Dispensing area height**
8.5" (215mm)

**Weight**
Countertop: 42lbs (19kg)
Freestanding: 58lbs (26kg)

**Standard filtration supplied**
Freestanding: Carbon Block (CBC) with lead, cyst and asbestos reduction, Granular Activated Carbon (GAC)
Countertop: Carbon Block (CBC) with lead, cyst and asbestos reduction

**Storage capacity**
Hot tank: 1.6 liters
Cold tank (Freestanding): 4 liters
Cold tank (Countertop): 2 liters

**Compressor**
Compressor 120V/60Hz

**Water temperatures settings**
Cold: 41°F/ 5°C
Hot: 187°F/ 85°C
